
August 14, 2024

Highly experienced BESS offtakers on RenewaFi are seeking up to 200 MW / 400 MWh of ERCOT BESS tolls. Projects should be located in the Houston or North zones. Tolls are expected to be 7 years in term, and the offtakers will post a letter of credit or cash. Proposals can be submitted directly via the [RenewaFi Platform](#) and must include:

- **Price** (\$/kW-month)
- **Project Location** (Zone)
- **Capacity** (MW)
- **Energy** (MWh)
- **Start Date**
- **Term** (Years)
- **Average Roundtrip Efficiency** (%)
- **Assumed Max Cycles per Year**
- **Assumed Max Cycles per Day**
- **Project Status** (In Development or Operating)
- **Co-Located** (Solar, Wind, or Standalone)
- **ITC Eligible** (Yes/No)
- **Seller Credit Support Status** (Not Rated, IG, or sub-IG)
- **Seller Credit Support Type** (e.g., Letter of Credit)
- **Seller Credit Amount at Execution**
- **Seller Credit Amount at Start**
- **Buyer Credit Support Type** (Letter of Credit, Cash, or Surety Bond)
- **Buyer Credit Amount at Execution**
- **Buyer Credit Amount at Start**

Please assume a market standard Annual Availability Guarantee of ~98%, and that during the most volatile periods (e.g. August) it is prohibited to schedule non-emergency maintenance. Please price with the assumption that MW volume does not degrade over the term. Parties can discuss project degradation estimates prior to matching.

Thank you for your consideration! Please submit questions to info@renewafi.com.

Sincerely,
Team RenewaFi
